

SURPLUS PROPERTY DONATION PROGRAM

The Los Angeles Superior Court is proud and excited to announce its new **Surplus Property Donation Program**. This Program is open to another court, the state, county, city, federal agency, community redevelopment agency, housing authority, community development commission, surplus property authority, school district, or any irrigation, flood control, county board of education, or other special district that are seeking furniture and related items to meet their furnishing needs.

The main goal is for government and public entities to avail themselves of the Court's excess used office furniture, electronics, etc. that are still useable but no longer needed for the scope of its operation. These are items that are not at the disposal stage but can truly benefit a donation recipient.

The **Surplus Property Donation Program** will be year-round with a wide variety of office furniture and related items offered through the donation catalogue. Surplus property will range, but are not limited to chairs, desks, tables, credenzas, podiums, coat racks, bookcases, shelves, televisions, DVD players, media carts, whiteboards, flagpoles, computers, monitors, printers, etc.

Please note that all items in the Catalogue are used and are donated in "as is" condition. All furniture must be picked up at your own expense from our designated location.
