BETWEEN 2 PARENTS
PROGRAM REQUIREMENTS

Please make sure you have your case number available.

The program will take over a seven-week period to complete. Make sure to dedicate time for completion of each section each week.   Please note that the system will record your login and log out times and monitor whether you have answered all questions.

We recommend using the most recent version of Edge, Chrome, Firefox or Safari browser for optimal user experience. You must have access to YouTube as you will be viewing videos required to complete the course. You will also need access to a printer to print exercises, homework, course materials, and submit a Certificate of Completion at the end of the course.
